Create a Class

Note: The following instructions are for a basic class with only one section. For a class with multiple sections, see page ?.

1. Go to www.turnitin.com

2. In the upper right hand corner, type your email address and password in the appropriate boxes. Click **Sign In**.

3. Your dashboard appears. Click **add a class** to get started.

4. The **Create a New Class** dialog appears.

5. Type the class name and the enrollment password, and set the class end date. Click **Submit**.

   Note: You must give the enrollment password to your students so they can access the class.

   Note: Set the class end date for the last day you want to accept papers from your students.
6. The new class information window opens. You should make a note of the class ID and the enrollment password. Your students will need these to access the class.

7. Click the close button in the upper right hand corner of the window.
8. The dashboard appears with your course listed.

9. Continue with the next section to **Create an Assignment.**
