The Traverse Outreach Program (Traverse) is the designated service-learning program for the UNM Counselor Education Program. The program offers a win-win opportunity through which graduate counseling students volunteer their services to the community and gain valuable experience to complement and enhance academic learning. Traverse courses and volunteer commitments are:

- Clinical Mental Health Counseling (30 hours)
- School Counseling (30 hours)

Traverse students cannot provide counseling but they can shadow or observe, assist with a group, give presentations, assist with certain administrative tasks and perform other appropriate duties.
